

Walton Churches Partnership – Note about cookies

Cookies are small text files containing a string of characters that can be placed on your computer or mobile device that uniquely identify your browser or device. Cookies allow a site or services to know if your computer or device has visited that site or service before. Cookies can then be used to help understand how the site or service is being used, help you navigate between pages efficiently, help remember your preferences, and generally improve your browsing experience. Cookies can also help ensure marketing you see online is more relevant to you and your interests.

Currently our website does not use cookies – whilst this means we cannot personalise your browsing experience, it also means that we do not keep a record of which devices have visited our website – so all visitors to our pages remain completely anonymous unless they complete the ‘contact us’ form.

Happy browsing!
